

BOROUGH

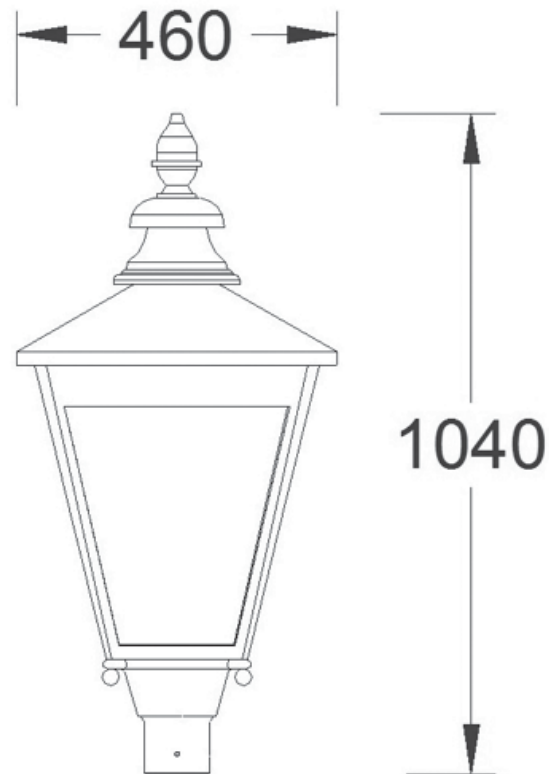

The **Borough** is a Heritage post top luminaire in the style of a Victorian gas lantern, hand made in the traditional method, whilst incorporating the latest photometric technology.

This marriage of traditional & modern technologies has created a lantern that is nostalgic, durable, and highly energy efficient. Proven in the field for many years with HID lamps, this distinctive heritage light fitting is now available in Compact Fluorescent, or LED for high efficiency. Engineered by Candela (UK), the **Borough** has been designed to the requirements of AS1158.6, and features a sealed optic chamber tested to IP65, so it is assured of maintaining high levels of lighting efficiency for the life of the fitting.

Available with PE Cell control, the **Borough** can be ordered in 32W & 42W CFL, & 21W LED.

Features
